DuplexPackSlip® Ship Smarter

SNOHOMISH, WA 98290

H YOUR COMPANY I (555) 555-5555 P 123 SECOND ST

> **ABOUT** DuplexPackSlip

DuplexPackSlip labels combine a shipping label and a packing list on the front and back of the same label. Since the shipping label and packing list print together on the same label, order accuracy is 100%. Make plastic pouches with folded laser paper packing lists a thing of the past.

DuplexPackSlip

HOW DO YOU SHIP TO DATA

The DuplexPackSlip label is easy to apply. Just print, peel and apply the label to the package. When your customer receives their package, they simply pull the tear strip to reveal the back side of the DuplexPackSlip label.

Process Improvement

Patented DuplexPackSlip tear strip technology provides numerous business process benefits, including using 1 consumable instead of 4, saving on labor with just 1 label to apply, improving order accuracy and automation via hardware applicators.

Integration

Minisoft's eFORMz can integrate DuplexPackSlip labels with any WMS, ERP, Order Management or Shipping Solution. eFORMz can capture and combine output from any of these systems and format it for printing on a DuplexPackSlip label.

| Print. | Peel. | Apply.

- Less Consumables
- 1 Printer Thermal or Laser
- 1 Label No Plastic Pouch
- 100% Order Match
- Label Application Automation
